

IRCA QUALITY AUDITOR*: BECOME A THIRD PARTY AUDITOR

IRCA approved training – certification reference A17971

Objectives

- With this training you acquire the necessary **methodology and competencies to become a Quality Management System Lead Auditor** (ISO 19011 and ISO 17021). The course is based on a participatory learning approach and includes a final examination leading to issue of the certificate required for the IRCA Auditor qualification.

Training plus points

- Mixed-method accelerated learning with minimum theory and maximum participant activity
- Understanding of quality system audits supported by case studies and workshops to develop essential auditor skills

Who is concerned?

- Anyone aspiring to become an IRCA Quality Auditor and conduct 1st, 2nd and 3rd party audits.

Training content

The training content meets the required conditions for ISO auditor training and qualification in accordance with ISO 19011 and ISO 17021, and includes

Concepts

- Distinguish the notions of quality, quality assurance and quality management
- Understand the background and changes to the ISO 9000 series standards
- Determine the role of quality management and the audit system in the modern economy
- Detailed review of the requirements of ISO 19011 and ISO 17021
- In-depth knowledge of the various audit types and corresponding methods

Preparation

- Establish internal and external audit programs
- Plan and prepare an audit
- Review of a quality manual
- Construct an audit plan
- Create an audit checklist

Execution

- Lead a 1st, 2nd and 3rd party audit
- Become proficient in investigative techniques
- Develop the necessary skills to manage difficult situations with assurance

Conclusion

- Report on audit results
- Verify corrective actions
- Set up follow-up audits
- Position the audit as a tool for improvement at management reviews
- Encourage enterprises to improve and meet ISO 9001 requirements
