

## Health measures / Resumption of activities

### The AFNOR Certification label adapts to all sectors

*Paris, May 28, 2020*—AFNOR Certification is beginning the first field audits to certify compliance with health rules for a wide variety of companies and tourist sites. All of them integrate specific prevention measures into their activities to reassure staff, customers or users regarding the risks generated by Covid-19.

Securing the resumption of staff activity and giving guarantees of confidence to customers and users: this is the dual challenge of [Covid-19 health measures label](#) verified by AFNOR Certification offered since May 12. Adapted to any sector of activity and any size of organization, the label should soon be displayed by various organizations such as:

- the Alten group: SSII, head office in Hauts-de-Seine;
- Allianz: insurance, network of agencies in mainland France and overseas;
- Antilogy, start-up specializing in virtual reality, Paris;
- Europ Voyage: ETI for passenger transport by coach, Haute-Vienne;
- Novacel: optical glasses – site in Aisne;
- the tourist office and travel agency of La Plagne: Savoie;
- Les Ecrins station: Southern Alps;
- the Puy Saint Vincent resort: Hautes-Alpes;
- the Super Dévoluy station: Hautes-Alpes.

Relevance and monitoring of protocols, materials available for safety, hygiene and cleaning, staff training, information for customers and users, etc., AFNOR Certification certifies the effectiveness and reliability of the health measures of the label holders for fight against Covid-19. Each certificate and logo mentions the month in which the verification was carried out.

*"We are able to support our 60,000 clients in France and mobilize all our resources to offer them competent auditors, knowledgeable about the challenges specific to each person's activities. The coupling of our expertise in quality, food safety and occupational health and safety is evocative for organizations",* assures Franck Lebeugle, general director of AFNOR Certification, a leading third-party certification organization in France. The specifications proposed by AFNOR Certification being modular according to the sectors of activity, they are adapted

to meet the challenges of very different organizations. A specific label has also been created for the construction sector, in partnership with APAVE Certification.

### **A return to activities pack**

The Covid-19 health measures label is part of a [service pack promoting the resumption of activities offered by the AFNOR group](#) to public and private organizations. Remote training for successful on-site recovery, free self-assessment grids to measure the correct application of health recommendations, etc. A solution for listening to employees also allows employers to question what their employees think is essential in their models of tomorrow, to hope to (re)mobilize them and retain them.

### **About AFNOR Certification**

AFNOR Certification is a leading independent third-party organization in France thanks to its certification and evaluation services for systems, services, products and skills. A subsidiary of the AFNOR association, it is a historical observer of quality and health safety approaches. AFNOR Certification offers a local service thanks to 39 agencies on five continents and 13 regional delegations in France. It mobilizes 1,600 qualified auditors to meet the needs of its clients on more than 60,000 sites around the world. AFNOR Certification runs the NF certification system and offers several signs of confidence such as AFAQ certification, the European Ecolabel for tourism and products, the Engagé RSE label. The general management of AFNOR Certification is ensured by Franck Lebeugle.
